

# **Social Inclusion and Equity in Workforce Development**

17 January 2022

The place where Africa's  
Green Economy grows

# Strategic objectives

- To develop a sustainable, commercially orientated Greentech SEZ in Atlantis
- To attract and retain export-focused Greentech investors into the Atlantis SEZ
- To establish and maintain a conducive business environment for the Green Economy
- **To foster local economic growth, employment and revitalisation by being integrated within the community**
- To implement credible, effective resources, business processes and administration which serve and drive the ASEZ strategic objectives

where green tech grows

# What is Greentech?

Green  
economy =

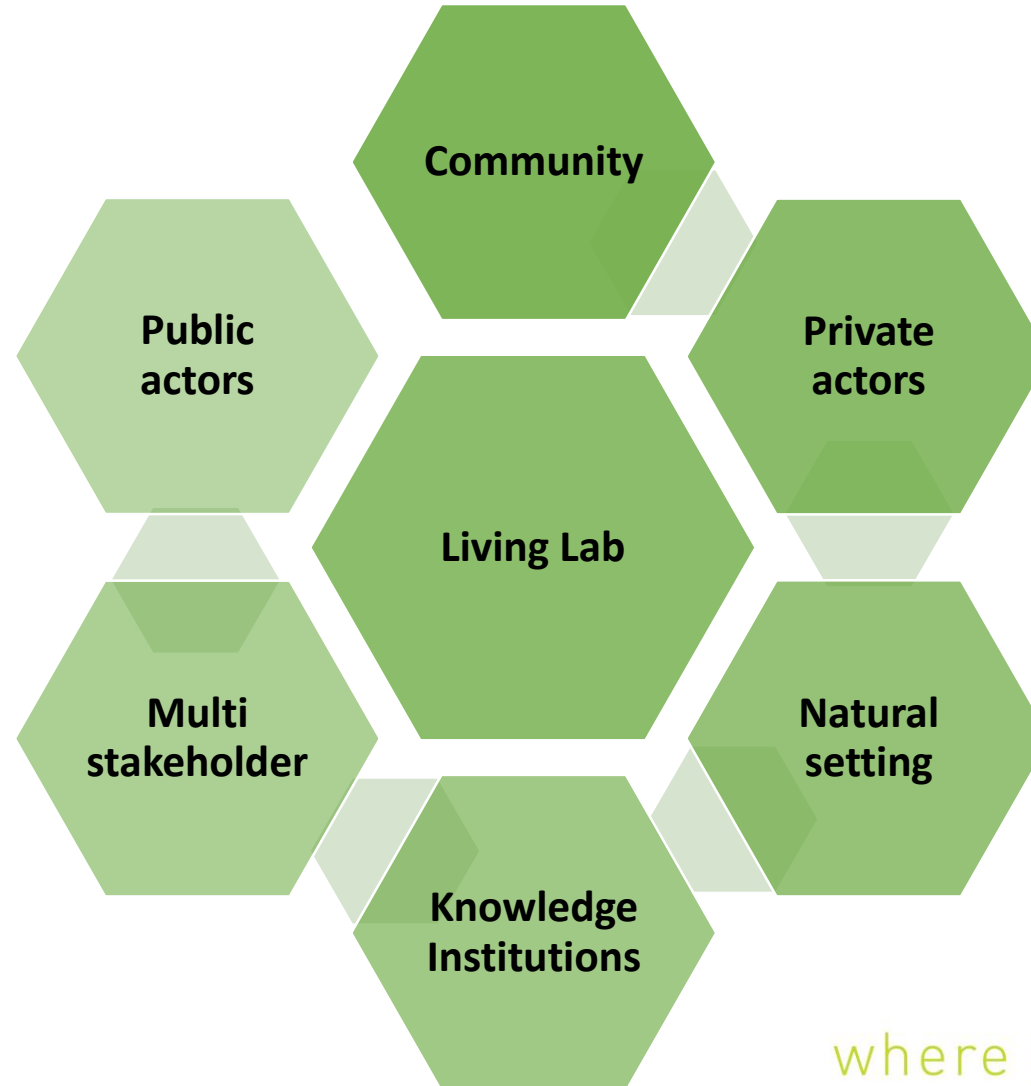

where green tech grows

# Atlantis SEZ as a “Living Lab”

**Fostering  
inclusion  
within urban  
and regional  
context**

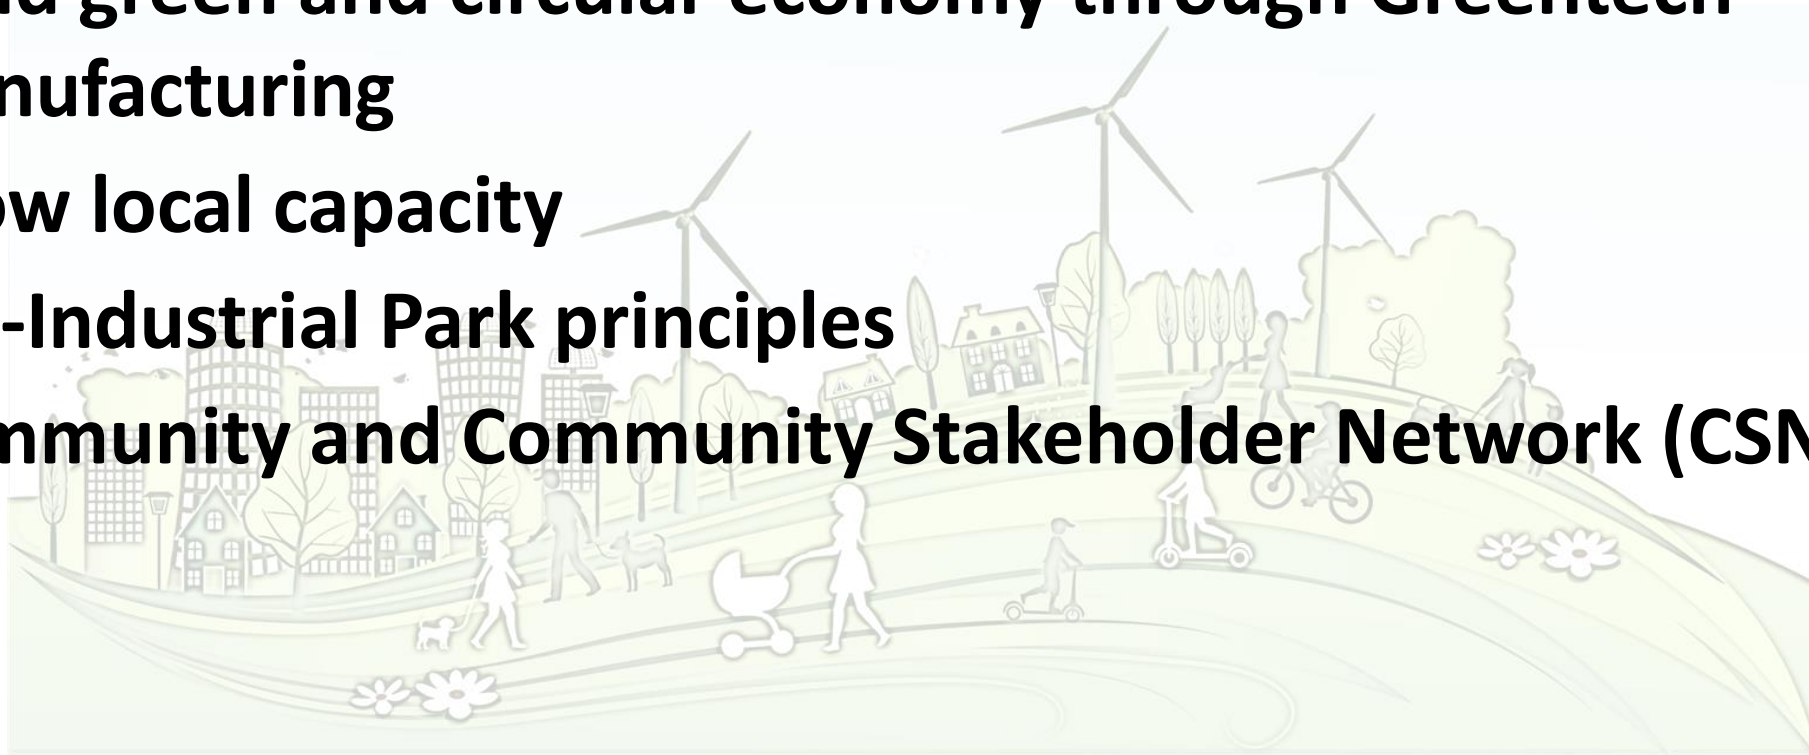

where green tech grows

# Leveraging partnerships in support of social justice and sustainability

- **Create ecosystem for investors**
- **Build green and circular economy through Greentech manufacturing**
- **Grow local capacity**
- **Eco-Industrial Park principles**
- **Community and Community Stakeholder Network (CSN)**

Key considerations  
for a workforce  
development  
programme
